

Policy Change Index for Crackdown (PCI-Crackdown)

Julian TszKin Chan (*Bates White Economic Consulting*)

Weifeng Zhong (*Mercatus Center at George Mason University*)

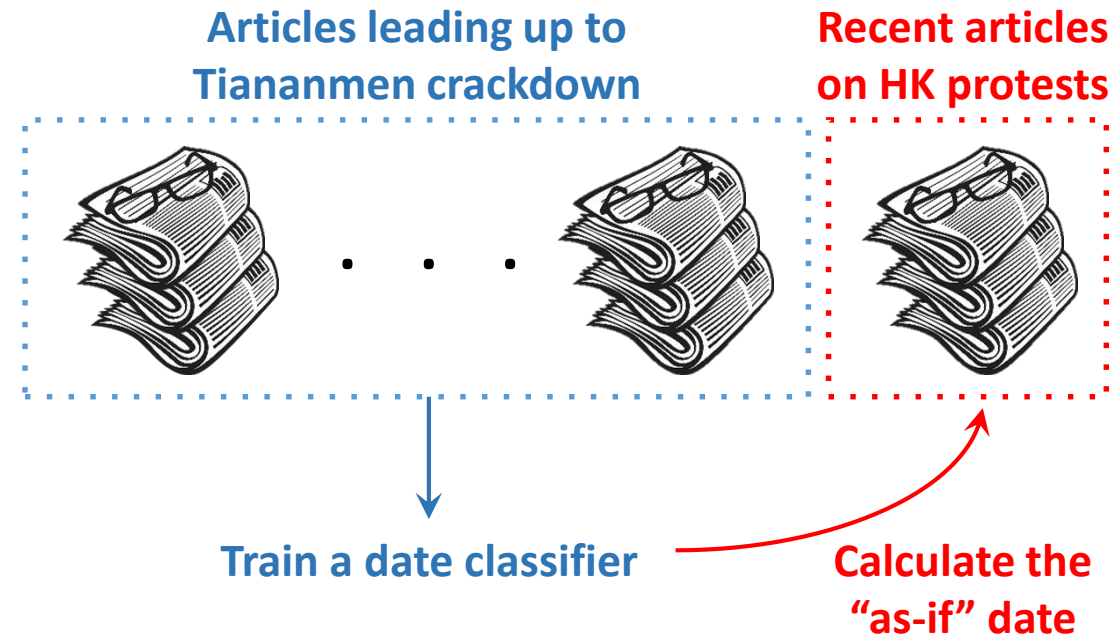

What's PCI-Crackdown?

A machine learning algorithm to predict if and when the Hong Kong protests will be met with a Tiananmen-like crackdown.

Where do we even start?

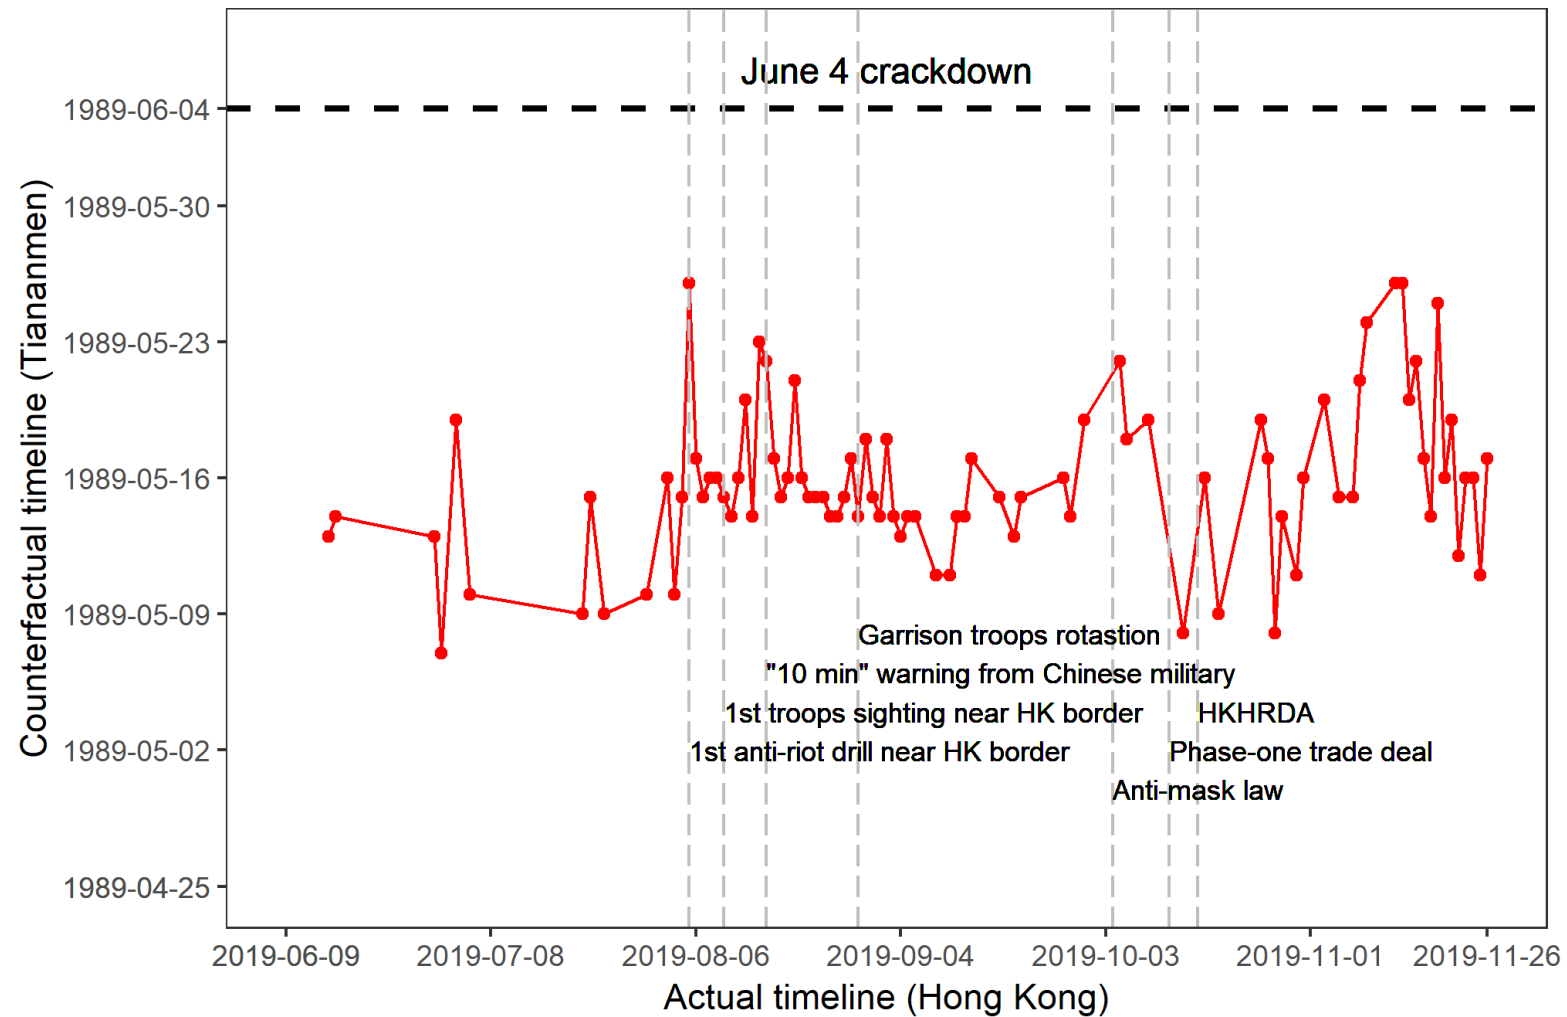

How does it work?

PCI-Crackdown: mapping current dates to Tiananmen timeline

PCI-Crackdown: 2019 Hong Kong protests
